DETAILED ACTION

Claims pending 1-22, and 29 as given in the amendment of 12/23/04.

The P. amendment of 6/08/05 has not been entered since the amendment is not signed.

The claims 1-22 and new claim 29 rejection under 35 USC 102 over WO 96/30036 still stands and can be changed to a 103 obvious rejection.

Applicants arguments that the amount of sodium hydroxide used is not sufficient to make the di-sodium salt is not convincing.

The **claims of the reference** clearly claims “ and salts thereof”.

The different solutions used are HCL and NaOH . It would be **inherent** that the salts formed would include the mono and di – sodium salts, since clearly 2 OH sites are available.

Also during delivery (in solution)the compound would be ionized and hence the method of administration is also obvious.

The new claims 29 is also rejected since the same reference also teaches the drug delivery of salmon calcitonin. See pages 45 and 46 for example.

Thus the rejections still stand.

Conclusion

The claims 1-22 and 29 still stand rejected.
